

## TRAIL DESCRIPTIONS

All Headquarters Trails are accessible by walking or by bike. The Woodcock Trail and the Charlotte Trail are both handicap accessible.

### WOODCOCK TRAIL

**Difficulty: Easy**

**Length: 0.3 Miles**

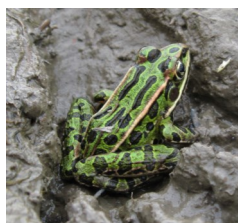

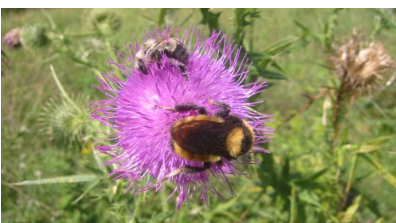

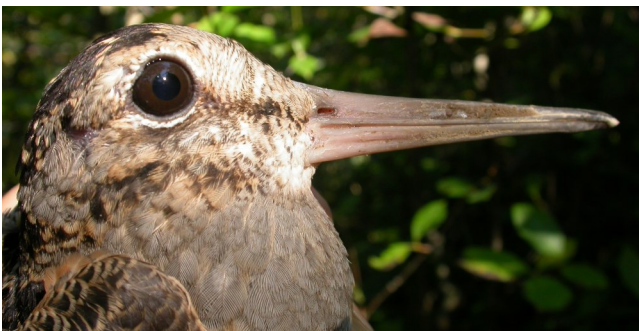

A short paved loop trail, the Woodcock Trail is handicap accessible and contains several interpretive panels that provide information on various native flora and fauna.

### GREG'S POND TRAIL

**Difficulty: Easy**

**Length: 1.0 Miles**

Greg's Pond Trail can be accessed in the rear of the Woodcock Trail. Two more entrances to the trail are available from the refuge entrance road and from the Headquarters building parking lot. There is also an observation blind where you can view wildlife and take photos. From the Headquarters building parking lot, you can also connect the end of Greg's Pond Trail to the Raven Trail for an enjoyable extended hike.

## DESCRIPTIONS (CONT.)

### CHARLOTTE TRAIL

**Difficulty: Easy**

**Length: 0.7 Miles**

This handicap accessible trail includes many interpretive panels about the natural and cultural history of the area. For a longer walk, Charlotte Trail connects nicely to the Woodcock Trail. To walk this trail in addition to the Woodcock Trail, park at the Woodcock trailhead.

### RAVEN TRAIL

**Difficulty: Easy**

**Length: 1.4 Miles**

Access the Raven Trail from the Headquarters building. This footpath is covered by dense tree canopy, and the hilly terrain makes for an interesting walk. Follow the Raven Trail across a large fire break to reach Dudley's Swamp. The Dudley Swamp loop then leads back across the firebreak and reconnects with the rest of Raven Trail.

### HEADQUARTERS LOOP TRAILHEAD

**Difficulty: Easy**

**Length: 3.0 Miles**

The trailhead to the Mile Bridge Road and Two Mile Road loop is accessed from the Headquarters area. Pass the Headquarters on your left and continue down the road. When you reach the next intersection, turning left will take you to the exit and turning right will take you to a parking area and public restrooms. To begin your hike, park your vehicle in this parking lot and walk further along the road to the large kiosk. This is the trailhead for the loop hike.
